A cross-sectional view of a multi-layered structure. A central gap, labeled 400, is formed between two main layers, 420 and 430. Layer 420 is on the left and layer 430 is on the right. The gap 400 is defined by two vertical edges, 438a and 438b. The top surface of the structure is labeled 440. The bottom surface of the structure is labeled 150. A layer 410 is located between the main layers 420 and 430. A layer 439 is located at the bottom of the gap 400.
